

OPUS

ART & DESIGN MEDIA

*We are pleased to introduce our newest store,
with a unique focus on 'Art & Design Media'*

"This new store is a perfect fit with our growing focus on art and design media, as more and more customers in the design, film and animation industries are coming to us with requests for products and specialized materials.

We are happy to be able to strengthen our relationship with the arts community, now over 30 years old, by offering new services and a broader range of materials.

*– David van Berckel,
Owner*

In response to more and more customer requests for supplies geared towards the design, animation and film industry, we are pleased to announce the opening of a 'new concept' Opus store at **207 West Hastings, Vancouver** in the downtown core – adjacent to many schools, businesses and design and architectural firms in the area.

Our newest store will feature a unique selection of **art & design media**, including presentation systems, layout papers & vellums, digital media, technical aides, specialty markers, and more. Our customers can still expect many of the same favourites they enjoy at our other locations however, as we endeavour to cross-over into new terrain while still satisfying the needs of our existing clientele.

We invite you to explore this new store and all it has to offer, opening in late March or April, 2008.

207 West Hastings Street, Vancouver
